Answer on Question#38129-Chemistry-Organic Chemistry

Question

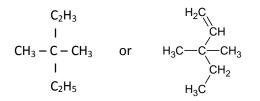

Write the IUPAC name

$$C_{2}H_{3}$$

I
CH₃ - CH₃ - CH₃
I
C₂H₅

Answer

Obviously, the above structure does not exist, because the central carbon atom in the structure is bound to 7 atoms, while valency of carbon is 4. The correct structure is

The IUPAC name of such structure is **3,3-dimethylpent-1-ene**.
