

Answer on Question #46429 – Chemistry – Organic Chemistry

Question:

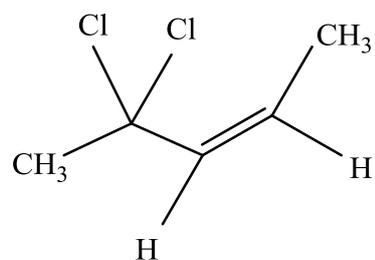

Is 4,4-dichloro-2-pentene a Cis-Trans isomer and what is its Structural Formulas?

Answer:

4,4-dichloro-2-pentene is a Cis-Trans isomer. Their structural formulas are below.

Trans-4,4-dichloro-2-pentene

Cis-4,4-dichloro-2-pentene
