

Answer on Question #52258, Chemistry, Physical Chemistry

Question:

18. In gaseous solutions, the solvent is _____.

liquid

solid

gas

none of the above

19. The temperature at which a pair of partially miscible liquid becomes completely miscible is called _____.

Miscible temperature

Boiling temperature

Critical solution temperature

Melting temperature

20. Which of the following is a pure substance made up of one type of atom?

A mixture

An element

A compound

A solution

Answer:

18. Gas

19. Critical solution temperature

20. An element
