

Answer on Question #52259 – Chemistry – Physical Chemistry

Question:

18 In gaseous solutions, the solvent is _____.

liquid

solid

gas

none of the above

19 The temperature at which a pair of partially miscible liquid becomes completely miscible is called _____.

Miscible temperature

Boiling temperature

Critical solution temperature

Melting temperature

20 Which of the following is a pure substance made up of one type of atom?

A mixture

An element

A compound

A solution
