

Answer on Question #61500– Chemistry– Other

Question:

7 In a molecule of CH₄, the hydrogen atoms are spatially oriented towards the center of a regular _____

Tetrahedron

Pyramid

Rectangle

Square

8 In which pair of hydrocarbons does each compound contain only one double bond per molecule?

C₂H₂

and

C₂H₆

C₂H₂

and

C₃H₆

C₄H₈

and

C₂H₄

C₆H₆

and

C₇H₈

9 Which element is present in all organic compounds?

Nitrogen

Oxygen

Carbon

Phosphorus
