

## Answer on the Question #64419, Chemistry / General Chemistry

What are some Francium compounds?

**Answer:**

### Common Compounds of Francium Fr<sup>+</sup>

<i>Compound name</i>	<i>Formula</i>
Francium Sulfide	Fr <sub>2</sub> S
Francium Dichromate	Fr <sub>2</sub> Cr <sub>2</sub> O <sub>7</sub>
Francium Fluoride	FrF
Francium Bromide	FrBr
Francium Phosphide	Fr <sub>3</sub> P
Francium Chloride	FrCl
Francium Acetate	FrC <sub>2</sub> H <sub>3</sub> O <sub>2</sub>
Francium Carbonate	Fr <sub>2</sub> CO <sub>3</sub>
Francium Nitride	Fr <sub>3</sub> N
Francium Phosphate	Fr <sub>3</sub> PO <sub>4</sub>
Francium Oxide	Fr <sub>2</sub> O
Francium Hydrogen Oxalate	FrHC <sub>2</sub> O <sub>4</sub>
Francium Selenide	Fr <sub>2</sub> Se
Francium Sulfate	Fr <sub>2</sub> SO <sub>4</sub>
Francium Sulfite	Fr <sub>2</sub> SO <sub>3</sub>
Francium Carbide	Fr <sub>4</sub> C
Francium Permanganate	FrMnO <sub>4</sub>
Francium Nitrite	FrNO <sub>2</sub>
Francium Thiocyanate	FrSCN
Francium Chromate	Fr <sub>2</sub> CrO <sub>4</sub>
Francium Hydrogen Carbonate	FrHCO <sub>3</sub>
Francium Metasilicate	Fr <sub>2</sub> SiO <sub>3</sub>
