There are 7 oz of sugar in a 16 oz box of honey hunks cereal. What percent of honey of honey hunks cereal is sugar?

Solution:

We have

16-7=9 oz honey in 16 oz box of honey hunks cereal.

Then

$$\frac{9}{16} \cdot 100\% = 56{,}25\% \text{ of honey.}$$

Answer:

There is $56{,}25\%$ of honey.
