

Which of the following mobile networks has a better offer? Justify your answer.

World Celcom: Php 500 monthly charge

Free calls and texts to World Celcom subscribers

Php 6.50 per minute of call to other networks.

Smartlink: Php 650 monthly charge

Free calls and texts to Smartlink subscribers

Php 5 per minute of call to other networks.

Solution.

World Celcom (Smartlink) has free calls and texts to World Celcom (Smartlink) subscribers, so it does not take into account.

Consider the first mobile network. World Celcom offers a lower monthly charge, but has a greater charge per minute of call to other networks.

So World Celcom has a better offer, if you want to talk with subscribers of the same network, and Smartlink has advantages in calls to other networks.
