

**Answer on Question #38434 – Math – Other**

The price of onions was reduced from 10.40 to 8.40. Find reduction percentage

**Solution**

The difference between prices is

$$10.40 - 8.40 = 2.00$$

Reduction percentage is

$$100\% * 2.00 / 10.40 = 19.23\%$$

**Answer:** 19.23 %
