## Answer on Question \#40098, Math, Statistics and Probability

Show all the ways in which 3 games of football can be concluded (it can be a win W, a loss L, or a draw X )

## Solution

We have two teams and three games. Let W - event " 1 -st team win the game", L - event " 1 -st team lose the game", X-event "it was a draw".

Let's show all possible variants:

WWW, WWX, WWL, WLW, WLX, WLL, WXW, WXX, WXL,
LWW, LWX, LWL, LLW, LLX, LLL, LXW, LXX, LXL,

XWW, XWX, XWL, XLW, XLX, XLL, XXW, XXX, XXL.
There are 27 possible results of 3 games of football.
