

Answer on Question #55363 – Math – Statistics and Probability

Question

Examine each of the following questions for possible bias. if you think the question is biased indicate how and purpose a better question:

- a)** should companies that pollute the environment be compelled to pay the costs of cleanup?
- b)** given that 18 year olds are old enough to vote and serve in the military is it fair to set the drinking age at 21?

Solution

- a)** Biased toward yes because of "pollute."

"Should companies be responsible for any costs of environmental clean-up?"

- b)** Biased towards no because of "old enough to serve in the military."

"Do you think the drinking age should be lowered from 21?"
