Answer to Question #87460 – Math – Financial Math

Question

Keiko payed 0.28 or her yearly earnings in taxes what fraction of her yearly earnings did she not Pay in taxes

Solution

It is given that tax proportion is 0.28, that is, 28%. It directly means the proportion which is not paid towards tax is 1-0.28=0.72, that is, 72%.

Answer: 0.72.
