

How many (whole number of) 76 kg people
can safely occupy an elevator that can hold a maximum mass of exactly 1 metric ton?
A metric ton is 1.000×10^3 kg.
Answer in units of people

Answer:

If 1.000 means a number one (in American and British English) then one person can
occupy an elevator.

If 1.000 means a thousand then whole number of people is 1355.
