Answer on question \#58747, Physics / Mechanics - Relativity

Question a truck is moving east ward with a velocity of $15 \mathrm{~m} / \mathrm{s}$ find the mass of the truck.if the momentum of the truck is $30000 \mathrm{~kg} \mathrm{~m} / \mathrm{s}$.find the mass of the truck

Solution Mass is

$$
m=\frac{p}{v}=\frac{30000}{15}=2000 \mathrm{~kg}
$$
