

Task:

Write a program which prompts user to enter his/her name and displays it in double quotes.

Code:

```
#include <iostream>
#include <cstdlib>
using namespace std;
int main (void)
{
    cout << "Enter your name please ";
    //Variable for containing name
    string name;
    //Reading name from console
    getline(cin, name);
    //Displaying name in double quotes
    cout << "\"" << name << "\"" << endl;
    system("PAUSE");
    return EXIT_SUCCESS;
}
```

Output:A screenshot of a Windows command prompt window. The title bar shows the file path: C:\Users\VOLODYMYR\Documents\Questions\Question #35618\Program.exe. The window content shows the following text:

```
Enter your name please Name Surname
"Name Surname"
Press any key to continue . . .
```
